

## ***Offers for Families***

The Finca Honor Vell comprises a total of 370 acres of grounds along with the manor house of Honor Vell. The impressive historical background of the finca is reflected in the authentically renovated buildings as well as in the eight individually designed rooms, the studio and the communal rooms.

Architectural reminders of the past such as walls a metre thick, original archways and vaulted ceilings and an oil mill and press, once the centre of the finca's business, transport Honor Vell guests back in time. In an especially relaxing way the ancient traditions of the medieval manor house are reflected in the Majorcan style furnishings. The spacious rooms are surprisingly and discreetly decorated with charming details such as woodcarvings, slanting ceilings with wooden beams, Majorcan tiled patterns, pretty mirrors and hidden oriels.

There's lots to see outside the building: ancient olive trees, abandoned charcoal burners, terrace complexes and dry stone walls, paths and trails in all directions from the finca, as well as an abundance of permanent residents including mountain goats, sheep, donkeys, dogs, cats, ...

The finca Honor Vell's fantastic stand alone location guarantees a unique holiday experience on Mallorca. Relax at the generously sized pool, let your children roam the property's spacious outdoor area, and discover Mallorca's magnificent scenery away from the tourist hustle and bustle.

### **3-bed-rooms :**

A low-cost offer for small families – a large Superior room is additionally equipped with a sofa bed so one child can stay together with the parents in one room.

### **Family Rooms :**

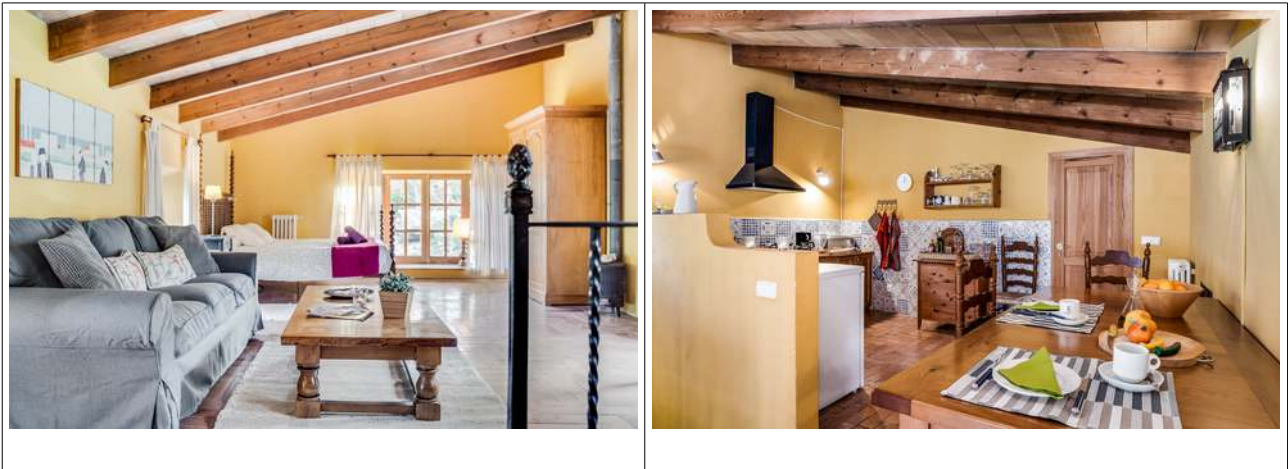

For families with 3-5 members, the *Family Rooms* offer an interesting alternative to booking individual rooms. By combining a superior and a standard room, you can enjoy a large living area with its own entrance and connecting hallway.

This offers more privacy within the family and from other hotel guests, as well as allowing you to still keep an eye on your children.

## **StudioPlus:**

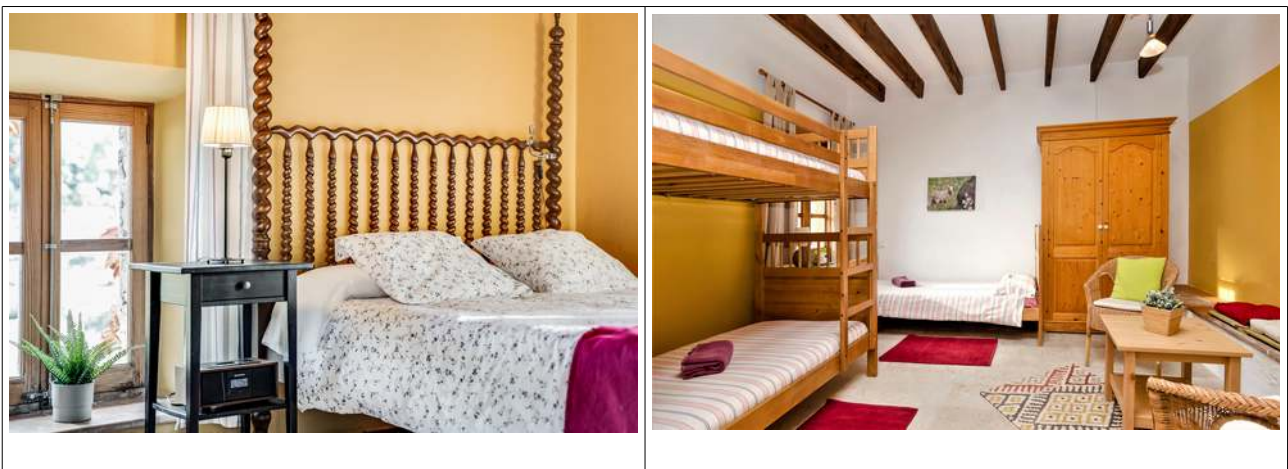

Due to the building's terraced structure, the studio stretches over two floors. Totalling approx. 55 m<sup>2</sup> in space, it offers plenty of room for 3 to 5 people.

The ground floor contains the entryway, a bathroom and one bedroom for the kids.

On the floor above, you will find

- > a bright living / sleeping area with windows on three sides,
- > direct access to the terrace, garden and pool and
- > the open-plan kitchen.

### **Tepee:**

The tepee sleeping area is particularly popular with our young guests: adventure for the children, good value-for-money for the parents.

Just a stone's throw away from the main building and nearby the outdoor toilets, the Tepee offers enough space for up to three camp beds. It can be enjoyed from June until the middle of September.

In true camping style, please bring sleeping bags with you for the kids to sleep in. We provide towels for the morning shower in the parent's bathroom as well as torches to ensure the right night-time atmosphere.

And when the scops owl starts hooting during the night: mum and dad's room is close by.

Age-limit for tepee sleeping area: 6 – 17 years.

### **Overview:**

Depending on the size and needs of your family, you have a variety of options to find the best-suited room from the different room categories for your holiday at Honor Vell. You can see them in the table below.
